The Academic module is for students who plan to study at a university or college in an English-speaking country, while the General Training module is for individuals who are migrating or seeking employment in an English-speaking country.

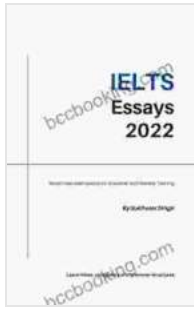

In both modules, you will be required to write two essays. For the Academic module, Task 1 requires you to write a response to a diagram, graph, or table, while Task 2 is a general essay that explores a given topic. For the General Training module, Task 1 is a letter, while Task 2 is an essay that presents a personal perspective or argument on a given topic.
