## What is a Clinical Nurse Specialist?

A CNS is an advanced practice registered nurse (APRN) who has a master's or doctoral degree in nursing. CNSs are experts in a specific area of nursing practice, such as critical care, oncology, or pediatrics. They work

in a variety of settings, including hospitals, clinics, and community health centers.

CNSs provide a wide range of services, including:

- Direct patient care
- Consultation and education
- Research
- Program development
- Policy development

CNSs play a vital role in the healthcare system. They provide high-quality care to patients, and they help to improve the overall health of the population.
