Based on exclusive interviews with key players and access to top-secret documents, [book title] tells the full story of how Saddam Hussein's regime built, tested, and deployed these deadly weapons.

From the early days of the program in the 1970s to the run-up to the 2003 invasion, [author's name] provides a gripping account of the scientists, engineers, and military officials who made Iraq's weapons program possible.

He also exposes the role of foreign governments in helping Iraq to acquire the materials and technology needed to build its weapons. And he reveals the chilling details of how Saddam Hussein used these weapons against his own people, including the horrific chemical attack on the Kurdish town of Halabja.

[Book title] is an essential read for anyone who wants to understand the true nature of the threat posed by Iraq's weapons program and the lessons that can be learned from its downfall.
