

Unlock Your GRE Success with the Essential 491-Word List

The Graduate Record Examination (GRE) is a standardized test that plays a pivotal role in determining the academic preparedness of applicants for graduate programs. One of the most crucial aspects of the GRE is its Verbal Reasoning section, which assesses test-takers' vocabulary and reading comprehension skills. Mastering the vocabulary used in the GRE is essential for achieving a high score and increasing your chances of admission to your desired program.

The GRE Verbal Reasoning section consists of three question types: Text Completion, Sentence Equivalence, and Reading Comprehension. Each question type requires a strong command of vocabulary to understand the context, identify relationships between words, and draw inferences. A limited vocabulary can significantly hinder your ability to perform well on these questions, leading to a lower overall score.

To help you conquer the GRE Verbal Reasoning section, we have compiled an indispensable 491-word list. These words are meticulously selected from the most frequently tested vocabulary on the GRE. By mastering this list, you will significantly expand your vocabulary, enhance your comprehension skills, and gain confidence in your ability to tackle the Verbal Reasoning section.
